

Amendment to Waterways Minutes of January 14, 2016 meeting.

The following description of action taken during the public meeting of 1/14/2016 was inadvertently omitted from the adopted meeting minutes. This section fell under “new business” as a topic or request that was not known to the waterways commission until the same day as the posted meeting:

Letter of Recommendation: Deborah Melino-Wender has drafted and recently presented a requested letter of endorsement for the Park and Recreation Department pursuit of Community Preservation (CPC) funds for a waterfront project on Apponagansett Bay. This letter was requested to be signed at this Commission meeting due to a deadline for CPC applications. After discussions regarding concerns that this project not impact waterways user fees or funds, Atty. Hannon made some modifications and deletions to the proposed letter which were acceptable to the Commission members present. Mr. Melo was to put the modified letter addressed to CPC Chair Mr. Buddy Baker-Smith on Commission letterhead for signature of the Chair and delivery to Ms. Wender.
